

The Nunavut Planning Commission, an Institution of Public Government established under the Nunavut Agreement, invites applicants to apply for the position of Jr. GIS Land Tech./Planner to be located at the Commission's office in Iqaluit. We offer a **competitive salary, a pension plan, and benefits package, including health, dental and vision, and opportunity for career advancement**. If you are a **dynamic** and **motivated team player** with the desire to be part of a visionary organization, then this is the company for you!

Reporting to the Senior Planner and GIS Land Tech./Planner, the incumbent is responsible for assisting with the implementation requirements of Nunavut Agreement (NA) Article 11, Land Use Planning, and related NA articles. The Jr. GIS Land Tech./Planner provides technical expertise in the collection, digitization, analysis, and representation of spatial data as well as social and economic information relevant to regional land use planning and resource management. The Jr. GIS Land Tech./Planner is also responsible for supporting all cartographic and GIS computer operations in the organization.

We are looking for the ideal candidate with a **combination of education and experience in Land Use Planning and Geographic study, and spatial analysis** with 2 years of related experience. Equivalencies will be considered. Priority consideration will be given to qualified applicants enrolled under the Nunavut Agreement with 8 or more years residency in Nunavut. Candidates must clearly identify their eligibility.

The incumbent will be mentored and have the opportunity to take further education and professional development.

KNOWLEDGE, SKILLS, AND ABILITIES

The applicant must have:

- Knowledge of computer software programs for office use: Microsoft Suite, spreadsheets, and statistical analysis programs
- Knowledge in land use planning processes
- Knowledge in the use of GIS (ArcGIS/Spatial Analyst) to analyze spatial information and generate a variety of maps to support land use planning processes
- Knowledge in ArcGIS Server, web mapping tools, web apps, and internet data delivery would be an asset
- Knowledge of the Nunavut Agreement
- Ability to design research and evaluate studies, collect, and analyze data using appropriate tools and methodologies
- Ability to identify the key issues and factors associated with the implementation of land use plans, zoning designations, procedures, and legislation
- Ability to identify and prioritize land use planning issues related to the conservation, development, management and use of land in the Nunavut Settlement Area
- Ability to participate in work and project teams
- Strong verbal and writing skills

Email your cover letter and résumé to HR@nunavut.ca and amainville@nunavut.ca
